GF 04. 2496

Ms. Bosniljka Bozovic
Director of Engineering
INTEGRAL-INZENJERING D.O.O., Laktasi
Jug Bogdana bb,
Banja Luka

LETTER OF APRECIATION

To Whom It May Concern:

The Delegation of the European Commission to Bosnia and Herzegovina is pleased to extend its high appreciation with a very good performance and professional and organizational capacity of the company INTEGRAL-INZENJERING, d.o.o. Laktasi on the project: Reconstruction of Jasenovac Bridge over the Una River, Contract No RE/YOU/29/11/98, financially supported by the European Union.

The final value of the executed construction works was 1,528,618.33 Euro.

The construction of the 129.10 m long international bridge crossing the Una River and connecting Bosnia and Herzegovina and the Republic of Croatia at Gradina-Jasenovac has comprised both the new construction and the rehabilitation of the 1500mm diameter drilled piles and pillars, erection of the composed steel-concrete spanning structure, asphalt pavement and bridge illumination. The works have been completed on our full satisfaction, on time and in a technically correct manner in the period from January to December 2003.

The constructed bridge structure has been technically accepted in April 2004.

Yours sincerely,

Goran Filipovic
Task Manager
