Re: USAID
Community Reintegration & Stabilization Program (CRSP)
Contract No. 168-C-00-01-00100-00
Samac Bridge

Dear Gentlemen,

Please accept this letter of recommendation as a measure of gratitude for the manner in which you completed the referenced project. The project, which included construction of the asphalt approach roads, concrete approach bridges, and a 248 meter steel and concrete composite bridge over the Bosna River in Samac, BiH, was executed by your staff in a well organized, professional manner. Your organization displayed broad experience and an extensive level of cooperation by resolving major issues and eliminating significant obstacles with ease.

Parsons looks forward to working with you in the future.

Very truly yours,

Parsons Delaware Inc.

Charles J. Zervas, P.E.
Senior Engineer
